

Harness

Haqihana launched its line of harnesses in 2004. This innovation was proposed as the answer to the widespread request by dog lovers for a valid alternative to the collar that would be comfortable and not constrictive. After almost twenty years, our H-harness is today a global icon of top quality craftsmanship Made in Italy. This achievement has been reached thanks to the enthusiasm of many professionals and supporters. The harness has become a symbol of respect and well being for our four legged friends. The harness and leash lines are characterized by the great attention to the design, by the search for the best materials, by the precision in the artisan manufacture and even by the widest range of colors and sizes available, all to offer the maximum comfort to the dog. Wearability - the feeling that the garment is tailor made - means elegance and comfort. When these aspects combine with an ease and a ‘second skin feel’ while wearing it, they create an instinctive agreement towards the harness by the dog who will happily wear it as it is comfortable, not annoying, it doesn’t hurt in any situation and is elegant too.

Features

The quality of the materials, all produced in Europe, combines our most important requisites: non toxicity, hypoallergenic, sustainability, toughness and durability. These features allow us to give to the product a five-year guarantee. The artisanal manufacturing, with extreme attention given to all details, is carried out entirely in our inhouse wokshop by our specialised artisans. The fittings, the relative sizing of the parts and their positioning on the dog’s body are designed to ensure maximum comfort in any situation. When the dog tugs, pulls or needs to be held back, the pressure applied by the leash is directed exclusively on the sternum, then on the chest and finally on the skeleton. This distribution avoids any pain, any sense of constriction, any rubbing or tension on the skin, any restriction of movement or any other discomfort. The two connection buckles and their positioning allow for a quick and easy fitting and removal of the harness, without hassle for both dog and owner.

Multicolor version

Production

The artisanal manufacturing pays great attention to every detail. All the parts are assembled with safety stitching. The folds that are in contact with the skin are finished with a special stitching designed to avoid scratches and rubbing, even in dogs with short or clipped hair.

Sizes and fittings

The accurate study and development of the sizing and the five-point adjusting system ensure an excellent fit and adaptability of the harness to the specific dimensions and proportions of the dog.

Webbing

Our webbing is produced in Italy on our exclusive design, using only high tenacity Nylon-6, spun dyed. This requirement allows us to achieve the maximum color uniformity and fastness. The unique characteristics of Nylon, such as its softness, its excellent strength/weight ratio, its resistance to abrasion and its chemical and biological stability make this fiber particularly suitable for the production of harnesses and leashes. Moreover, Nylon is completely recyclable, which is the basis of our product’s ecosustainability.

D-Rings

All metal components are made specifically on our design and are produced in AISI-304 stainless steel that does not release Nickel, hence it is hypoallergenic in accordance with the relevant European directives.

Buckles and loops

These are made of acetal resin (POM), a material with high mechanical strength and excellent impact resistance even in extreme conditions. To guarantee safety and comfort, the shapes are rounded and have no sharp edges.

Tags

After a lengthy and extremely thorough research process, our new tags encapsulate the concept of quality combined with the respect for the environment. Our tags are now produced from recycled paper and vegetable fibers: 100% sustainable, Oekotex certified, Reach and Vegan Friendly.

Harness sizing

Size	Webbing width mm	Chest circumf. cm		Breed or Type
		min	max	
XL	25	90	130	Great Dane, Leonberger, Saint Bernard
L		75	110	German Sheperd, Weimaraner, Rottweiler, Dobermann

S SL	20	55	75	Cocker Spaniel, Beagle, French Bulldog Saluki
XS XSL	15	43	55	Westie, Cavalier King Charles Spaniel Whippet, Dachshund
XXS XXSL		35	45	Miniature Pinscher, Maltese Dachshund
XXXS		30	40	Yorkshire Terrier, Chihuahua

Leashes

Our leashes are comfortable walking leashes: long and light weight, they allow ample freedom of movement to the dog.

OUR LEASHES ARE AVAILABLE IN TWO VERSIONS:
- webbing 15 mm: length 1.5, 3, 5, 10 meters
- webbing 20 mm: length 3 meters

The leashes in lengths of 2 and 3 meters can be used halved as they are equipped with two carabiners.

The ‘Brema’ carabiner is made of AISI-304 stainless steel and is fitted on all leashes.

Leashes features

Length	Width mm	Can it be halved?	Quantity of carabiners hooks
1,5 - 5 - 10 meters	15	no	1
2 - 3 meters	15	yes	2
3 meters	20	yes	2

Haqihana warranty

Our harnesses are guaranteed for the first five years from the date of purchase against any flaw, damage or breakage that cannot be considered normal wear and tear. Also provided that the accident occurs within the correct use of the item. Haqihana reserves the right to verify that the item has been used correctly. An incorrect use includes, for example, dog chewed parts or failure to comply with our cleaning instructions.

Repair services

Haqihana is glad to offer a repair service for damages to any harness not covered by our warranty, where this is technically possible.

Ecosustainability

Haqihana has been committed for many years now to a strict policy of sustainability and respect for the environment. Nowadays all the production stages, from procurement to management and storage of all materials, are executed with the utmost respect for the environment and all the materials used are 100% recyclable.
